

Participate in the European Day of Languages world record attempt!

Send us a short video on why you love (a) particular language(s)!

European Day of Languages 'world record' attempt: we would like to involve individuals, groups and event organisers in as many countries as possible in trying to set an EDL record around the 26 September - by creating a short video clip based on the theme "I love [a language] because..."

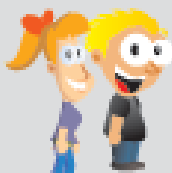

The video can be recorded in any language and can be about any language(s). The clips may involve an individual, group or class and should be no longer than 10 - 20 seconds in length and filmed in landscape format.

BE CREATIVE!

You can sing, dance, rap, shout, whisper, write, draw, build,....

By 30 September 2017 we hope to compile the largest number of videos ever assembled on the theme of languages.

European Day of Languages - September 26
