

# Power up your parenting for the online generation

As parents, the internet has revolutionised the way that we live our lives. Our children, however, have grown up with social media, smartphones and selfies. They are simply a part of their life.

So how do we embrace the positive aspects of digital life as a family whilst helping them navigate through the associated dangers such as bullying, pornography and the pressure for likes?

We would love to welcome you to our event *Left To Their Own Devices?* where Katharine Hill and Philip Jinadu will give you perception-shifting insights into today's increasingly digital world.
